

Environmental Statement

Introduction

This Environmental Statement summarises LSEG's environmental commitments related to our greenhouse gas emissions and the key requirements we implement to achieve these. This Statement relates to the management of the environmental impacts associated with operation of the business and does not include the indirect environmental impacts associated with our products and services.

Environmental Statement

We are committed to adopting best practice environmental management in our business operations. With respect to greenhouse gas emissions this means we will adopt the following requirements as a minimum:

- Measure the greenhouse gas emissions associated with operating the business and business travel
- Set and publish targets for the reduction of our greenhouse gas emissions aiming for continuous improvement
- Design and implement a robust action plan to reduce the emissions resulting from our business operations and business travel such as energy efficiency measures, switching to renewable electricity tariffs, reducing our property portfolio and offsetting residual emissions.
- Engage with our suppliers to quantify emissions resulting from purchased goods and services and encourage them to adopt science-based emissions reductions targets
- Identify and manage the risks and opportunities of climate change on our business operations
- Partner with credible partners to achieve our environmental goals
- Report externally on progress towards our targets
- Report against relevant global standards and frameworks
- Adhere to all compliance obligations including relevant legislation and standards as outlined within the Environmental Management System

Targets

LSEG has set near-term science-based targets to reduce our greenhouse gas emissions in line with the UN Paris Agreement; these have been certified by the Science Based Target Initiative (SBTi). We have also set a longer-term Net Zero target.

Near-term targets:

- i. London Stock Exchange Group plc commits to reduce absolute scope 1, scope 2 and scope 3 GHG emissions covering fuel-and-energy-related activities, business travel, and employee commuting 50% by 2030 from a 2019 base year.
- ii. We encourage and expect all our suppliers to reduce their carbon emissions and specifically London Stock Exchange Group plc commits that 67% of its suppliers by emissions covering purchased goods and services will have science-based targets by 2026.

Longer-term target:

Environmental Statement

London Stock Exchange Group plc commits to achieve Net Zero by 2040.

Governance

The Chief Operating Officer is the Executive Sponsor for the Environmental Statement, and the Group Head of Sustainability is the Statement owner and is responsible for ensuring appropriate ongoing management to ensure full implementation of the Statement requirements.
