

Take your first step towards mastering industry leading solutions

Self-paced e-learning certifications

Certifications overview

Our certifications allow you to demonstrate your knowledge of products that are used by financial market professionals.

Using our on-demand learning catalogue, you can upskill and prepare at your own pace.

With a final assessment and certification, you can share your new credential with peers and future employers.

Certifications are available for the following products. Just click on the links to access the training modules:

- LSEG Workspace
- Eikon
- DataStream

Each learning programme consists of a series of bite-sized videos, which can be consumed within a few hours. The final test is accessible online. You can self-register and take the test at a time that suits you.

Simply register via the certification page, take the test (30 product related questions within 60 minutes), receive immediate results and print your certification.

Our certifications are foundational and cover core functionality within the product, designed to get you started.

Access certifications [here](#).

01: Access your desired certification

From the [Learning Centre](#) homepage select 'Take certifications' and select your certification:

- LSEG Workspace
- Eikon
- DataStream

02: Use the learning resources to prepare for the test

Work through the learning modules.

A pre requisite to taking the exam is to complete all learning modules within the certification. Once completed, the exam will be available for you to take.

03: Take the test

You have 60 minutes to answer 30 multiple choice questions. You can use your product during the test.

- Two attempts at the test
- Get your results instantly
