

LSEG World-Check One Certification FAQs

Mastering the complexities of financial crime and compliance requires a solid grasp of regulatory fundamentals and the effective use of advanced screening solutions like World-Check One, along with knowledge of watchlist data coverage.

The World-Check One Certification programme equips risk and compliance officers with the essential skills and knowledge to excel in their roles, offering an in-depth educational series powered by the award-winning World-Check Risk Intelligence data, which covers key aspects of the World-Check One Screening solution and its extensive risk data coverage.

The programme includes seven on-demand modules, covering a variety of subjects.

The entire certification will take between 2 to 4 hours to complete, including a one-hour final examination consisting of 30 questions. Upon successful completion, participants receive a digital certificate that validates their expertise and can be shared with peers on LinkedIn.

By the end of the programme, you will have:

- An understanding of the World-Check's research processes, methodology as well as inclusion criteria.
- Working knowledge on the World-Check One features and data resources, when performing initial, batch and ongoing screening.
- Working knowledge on the World-Check One case management review and audit capabilities.
- Working knowledge on the setup and administrative capabilities within World-Check One to reduce false positives
- Working knowledge on the reporting and analytics capabilities.
- Recognition of your achievement. Once you successfully complete the programme, you will receive an LSEG certificate.
